Section M011
Lecture: MW 3:45-5:05 PM, Carnegie 311

Course Supervisor

Dr. Yuan Yuan
Office: Carnegie 317A
yyuan@syr.edu

Resources for Extra Help Feel free to drop by during office hours to ask questions. They are there for your benefit. The math department also has a math clinic and calculus clinic that you may use for extra help. The hours and location of the math clinic and calculus clinic can be found at <http://math.syr.edu/Help.htm>.

Written Homework Written homework will be assigned regularly. You are allowed to work together on assignments, but each person must hand in their own work. You are expected to hand in homework assignments on time. Late homework will not be accepted.

Quizzes Starting on the third week of class, quizzes will be given every week in lecture, with the exception of exam weeks. No make-up quizzes will be given, but the lowest two quiz scores will be dropped at the end of the semester.

Exams There will be three midterm exams for the course. The material covered on each exam will be announced in class as the exam approaches. The exam dates are listed below:

- Exam 1: February 4 in class
- Exam 2: March 4 in class
- Exam 3: April 15 in class

No make-up exams will be given. If you miss an exam and have an acceptable written excuse, your missed exam score will be replaced by your score on that portion of the material on the final exam. A missed exam without an acceptable written excuse will be counted as a zero.

Cell phones: Cell phones should be turned off and put away during class. Any use of cell phones or unauthorized calculators during a quiz or exam is considered a violation of the Academic Integrity Policy.
