

MAT 183 – Elements of Modern Mathematics

Syllabus for Summer Session II 2016

Course Instructor: Reese Laviolette

Email: rrlaviol@syr.edu

Office: Archbold 103 d

Office hours: T 1 – 2pm, W 1 – 2pm

Course Time & Location: MTWTh 10:00am – 12:25pm, Link Hall 103

Course Description: This course is designed for students in the Sports Management Program. The course will involve no calculus, and a thorough background in high school mathematics is the only prerequisite. The course has three main components: Linear Algebra, Probability & Statistics, and the Mathematics of Finance.

Textbook: Goldstein, Schneider, and Siegel (2010). Finite Mathematics and its Applications (2nd custom ed.). Prentice Hall, Custom Edition for Syracuse University.

Calculator: This course involves extensive use of the TI-83/84 graphing calculator. Each student is required to own a TI-83/84 calculator. The calculator will prove to be an indispensable tool throughout the course, particularly in the Mathematics of Finance component. Since the TI-83/84 will be useful, if not essential, for virtually every topic, it is important to familiarize yourself with the calculator as soon as possible. Though the main techniques will be demonstrated in class, it is up to you to become proficient with the calculator on your own. **The TI-83/84 is the only calculator that may be used on a test without prior approval from your instructor. In particular, calculators on cell phones are not to be used on tests or quizzes.**

Quizzes and Homework: Quizzes and homework based on the assigned exercises below or other resources will be given regularly. There will be no make-up for quizzes. A missed quiz will have a score of zero. Homework will be collected at the beginning of the next class. Extensions will only be given for DOCUMENTED EXTENDED ILLNESSES. One lowest quiz score and one lowest homework score will be dropped.

Attendance and Class Preparation: Students are expected to attend every lecture and are responsible for any announcements made during lecture. Students should read the appropriate sections of the text before the class in which the material is presented.

Tests: A missed exam, with a valid excuse, can be made up by the end of the fourth class following the exam. Otherwise, it will be a zero.

Help: You can get extra help by coming to office hours. Email me if you cannot make them and need to meet at a different time. In addition, the Mathematics Department offers regular math clinics. A schedule of clinic hours will be available in the math office, Carnegie 215, and on the math website: <http://math.syr.edu/Help.htm>.

Grading Policy: Your grade will be determined by the following:

Exam 1: Linear Algebra & Counting	25%
Exam 2: Probability & Statistics	25%
Exam 3: Markov Processes & Finance	25%
Homework & Quizzes:	20%
Participation/Attendance:	5%

Test and Exam scores will NOT be curved. Letter grades will be assigned as follows:

A	93-100%	C+	77-80%
A-	90-93%	C	73-77%
B+	87-90%	C-	70-73%
B	83-87%	D	65-70%
B-	80-83%	F	0-65%

Cell Phones: All electronic devices other than the calculator should be turned off and put away during quizzes and exams. Calculators on cell phones are not to be used on tests or quizzes.

Students with Disabilities: If you believe that you need accommodations for a disability, please contact the Office of Disability Services (ODS), located in Room 309 of 804 University Avenue, or call (315) 443-4498 for an appointment to discuss your needs and the process for requesting accommodations. The website is as follows: <http://disabilityservices.syr.edu>. ODS is responsible for coordinating disability-related accommodations and will issue students with documented disabilities Accommodation Authorization Letters, as appropriate. Since accommodations may require early planning and generally are not provided retroactively, please contact ODS as soon as possible. You are also welcome to contact me privately to discuss your academic needs although I cannot arrange for disability-related accommodations. Making arrangements with ODS takes time. Do not wait until just before the first test.

Academic Integrity: The Syracuse University Academic Integrity Policy holds students accountable for the integrity of the work they submit. Students should be familiar with the Policy and know that it is their responsibility to learn about instructor and general academic expectations with regard to proper citation of sources in written work. The policy also governs the integrity of work submitted in exams and assignments as well as the veracity of signatures on attendance sheets and other verifications of participation in class activities. Serious sanctions can result from academic dishonesty of any sort. For more information and the complete policy, see <http://academic integrity.syr.edu>.

Religious Observances Policy: SU religious observances policy recognizes the diversity of faiths represented among the campus community and protects the rights of students, faculty, and staff to observe religious holidays according to their tradition. Under the policy, students are provided an opportunity to make up any examination, study, or work requirements that may be missed due to are religious observance provided they notify their instructors before the end of the second week of

classes. For fall and spring semesters, an online notification process is available through MySlice (Student Services > Enrollment > My Religious Observances) from the first day of class until the end of the second week of class.
