Course Instructor: Zayd Ghoggali.
Email: zghoggal@syr.edu
Office: 103D-Archbold.
Office Hours: MoTuWeTh: 5:00pm-6:00pm at Life Science Building 200. At other times, you can see me by appointment.
Phone: 315-443-3291 (office), 412-478-1163 (cell).
Class Time and Location: MoTuWeTh: 2:00pm-4:25pm, Life Science Building 200.

Course Description: One-variable differential and integral calculus. Applications to Business and Economics. MAT 284 may not be taken for credit after successful completion of MAT 285 or MAT 295. (4 credits)

Calculator: A TI-83 calculator or equivalent is required. But calculators with symbolic manipulation capabilities such as the TI-89 or TI-92 may not be used on exams.

Prerequisites: Although there are no formal prerequisites, the knowledge of pre-calculus material at the level of MAT 194 is essential for success in this course.

Liberal Arts Core: The sequence MAT 183–284, taken in either order, satisfies the Quantitative Skills requirement of the Liberal Arts Core in the College of Arts and Sciences. However, this sequence is specifically designed for students in the School of Management.

Cell Phones: All electronic devices other than the calculator should be turned off and put away during class. Calculators on cell phones are not to be used on tests.
Midterm Exams: There will be two midterm exams given in class on the days announced by the instructor. There will be no make-up exams. A missed exam counts as a zero unless you present a valid excuse from a physician or the Dean’s Office. With an acceptable excuse, your missed exam score will be replaced by your score on that portion of the material on the final.

Final Exam: Will be given on Thursday, August 7. The exact time and location for the final exam will be announced in class near the end of the term. The final exam will not be given at any other time. Therefore, please do not plan to leave campus before 5:00 pm on Thursday, August 7.

Homework will be done online using WeBWorK, an open-source homework system for math and sciences courses. Access information:
1. Go to http://webwork.syr.edu/
2. Click the class name.
3. Your Username is your NetID, for example jqpublic.
4. Your Password is initially set to be your 9-digit SUID. You should change it after logging in.
   The number of attempts for each question is 12. Problems can be done in any order. You do not have to do them all at once. You can also get a PDF file of the entire assignment and print it out to work offline. Two lowest WeBWorK scores will be dropped at the end of the term.

Grading: Your numeric grade for the term will be based on two midterm exams (20% each), final exam (35%) and homework (%25).

Available Assistance:
• Office hours of the instructor.
• Calculus Clinic and Math Clinic: see the schedules at http://math.syr.edu
• Mathematics Department also keeps a list of private tutors at http://math.syr.edu
Additional Practice Problems (from the textbook)

(1.1) 11, 17, 29, 33, 40  (11.1) 3, 5, 7, 12, 15
(1.3) 1, 3, 5, 7, 9  (11.2) 17, 25, 33, 45, 47
(2.1) 5, 13, 23, 31, 39  (11.3) 13, 19, 21, 23, 30
(2.2) 1, 3, 11, 32, 33  (11.4) 3, 15, 21, 27, 33
(2.3) 3, 7, 11, 15, 17  (11.5) 1, 7, 11, 19, 25
(2.5) 3, 9, 16, 18, 39  (12.1) 3, 5, 11, 25, 43
(3.1) 23, 27, 39, 55, 61  (12.2) 3, 5, 11, 13, 25
(3.2) 5, 15, 17, 21, 23  (12.3) 3, 5, 15, 17, 19
(3.6) 1, 9, 17, 19, 21  (12.7) 1, 3, 5, 9, 11
(4.1) 3, 7, 9, 11  (14.2) 3, 5, 9, 15, 21
(4.2) 3, 9, 19, 31, 59  (14.3) 1, 11, 13, 15, 21
(4.3) 5, 21, 35, 45, 47  (13.1) 1, 3, 35, 57, 71
(10.1) 3, 11, 15, 25, 33  (13.3) 7, 9, 29, 35, 63
(10.2) 13, 21, 23, 33, 41  (13.4) 3, 5, 8
(10.3) 1, 5, 9, 12, 25  (13.6) 17, 19, 27, 32, 33

Learning Goals:
- Students will be able to use and understand the usage of mathematical notation
- Students will be able to select an appropriate mathematical model for a given real world problem
- Students will be able to do hand calculations accurately and appropriately
- Students will be able to do calculations with the aid of appropriate hardware and/or software

Tips for Success in this Course:
- It is absolutely essential that you understand how to solve all the assigned problems. Once you understand how to solve a problem, write your solution down neatly and in full detail with explanations that make your reasoning clear.
- Don't fall behind. If you are having difficulties keeping up with the material, see me immediately to discuss the problem.
- Take advantage of office hours (or email me if you have quick questions).
- Discussing problems with a classmate is very useful.
- Questions in class are strongly encouraged.
- Expect to work hard. Don't get discouraged if you find some of the material difficult. Be persistent and patient.
Students with Disabilities. If you believe that you need accommodations for a disability, please contact the Office of Disability Services (ODS), http://disabilityservices.syr.edu, located in Room 309 of 804 University Avenue, or call (315) 443-4498 for an appointment to discuss your needs and the process for requesting accommodations. ODS is responsible for coordinating disability-related accommodations and will issue students with documented Disabilities Accommodation Authorization Letters, as appropriate. Since accommodations may require early planning and generally are not provided retroactively, please contact ODS as soon as possible.

Religious Observances Policy. SU religious observances policy recognizes the diversity of faiths represented among the campus community and protects the rights of students, faculty, and staff to observe religious holidays according to their tradition. Under the policy, students are provided an opportunity to make up any examination, study, or work requirements that may be missed due to a religious observance provided they notify their instructors before the end of the second week of classes. For fall and spring semesters, an online notification process is available through MySlice (Student Services -> Enrollment -> My Religious Observances) from the first day of class until the end of the second week of class.

Academic Integrity. Syracuse University sets high standards for academic integrity. Those standards are supported and enforced by students, including those who serve as academic integrity hearing panel members and hearing officers. The presumptive sanction for a first offense is course failure, accompanied by the transcript notation “Violation of the Academic Integrity Policy”. The standard sanction for a first offense by graduate students is suspension or expulsion. Students should review the Office of Academic Integrity online resource “Twenty Questions and Answers About the Syracuse University Academic Integrity Policy” and confer with instructors about course-specific citation methods, permitted collaboration (if any), and rules for examinations. The Policy also governs the veracity of signatures on attendance sheets and other verification of participation in class activities. Additional guidance for students can be found in the Office of Academic Integrity resource: “What does academic integrity mean?” See http://academicintegrity.syr.edu
